

EVERLY PLACE

Project Brief

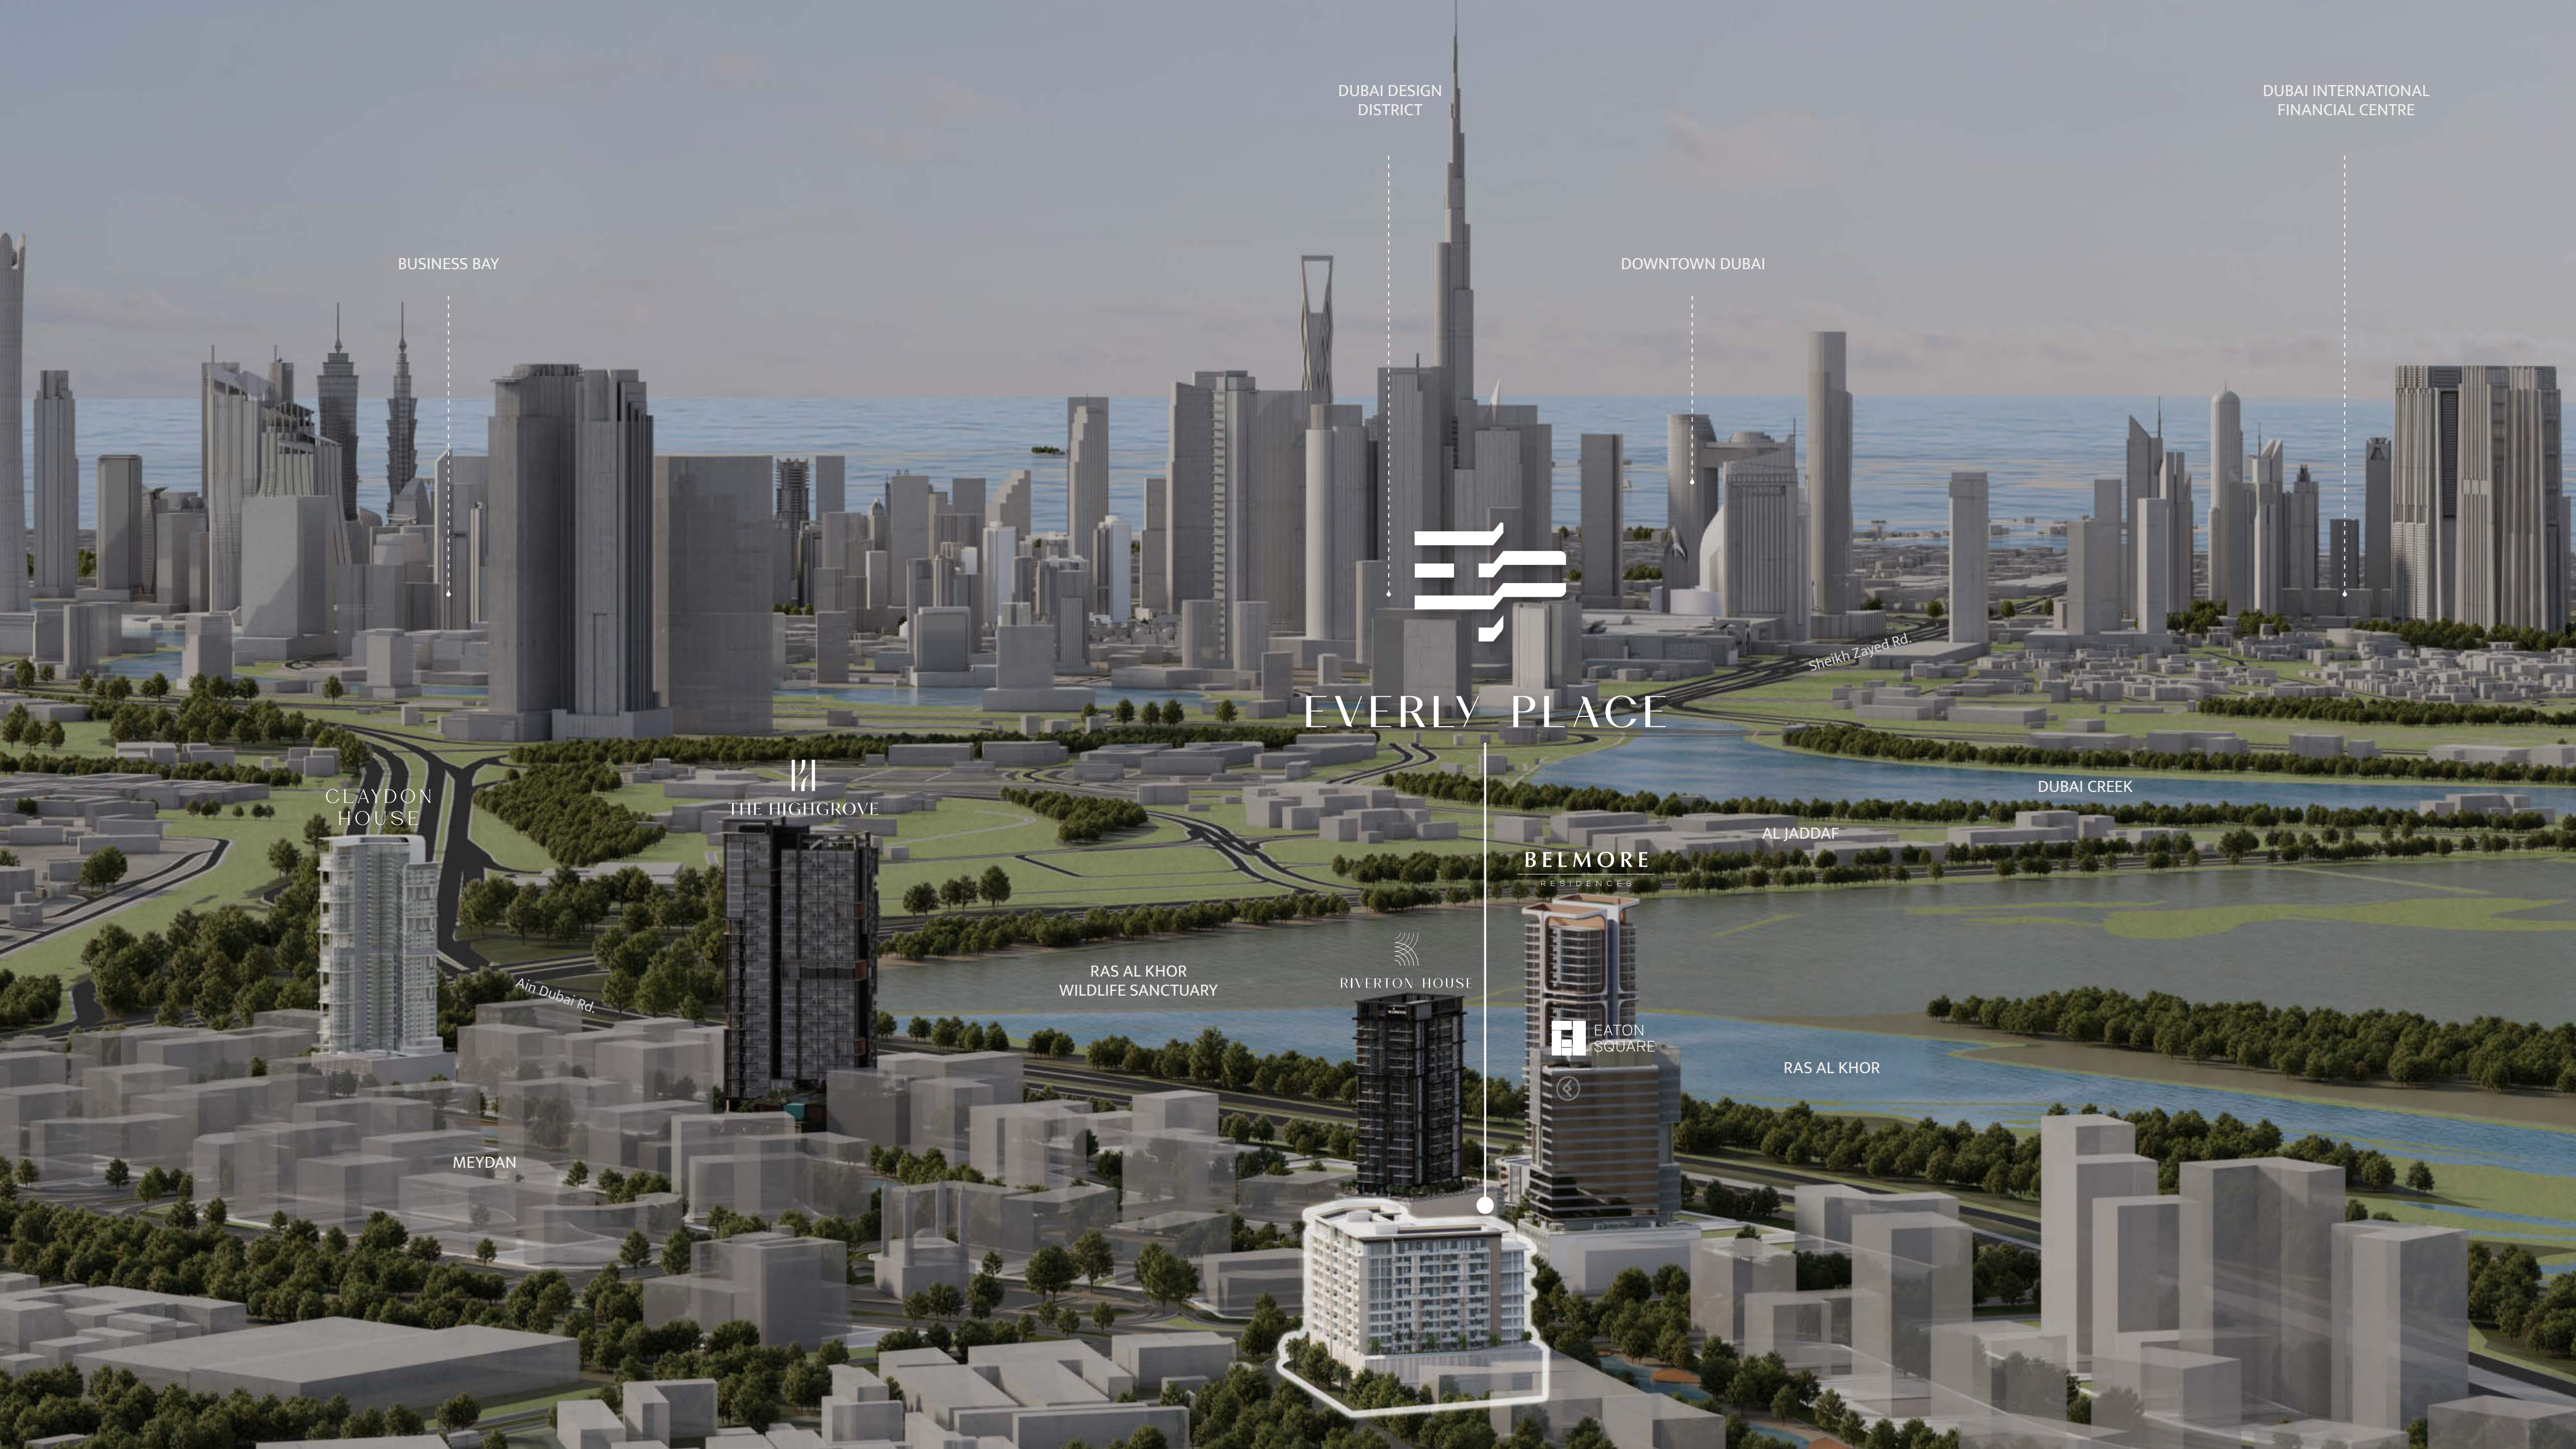

A Fluid Embrace

The U-shaped architecture forms a sculptural frame around the canal, capturing light and views from every angle. Layered terraces, integrated greenery, and a striking glass façade create a bold yet refined silhouette on Dubai's skyline.

The building does not stand against its surroundings. It curves around them, enhancing a grounded living where you feel aligned to both nature and modernity.

LOCATION

In the heart of MBR City, a refined silhouette takes shape. Everly Place emerges as a contemporary residence poised beside the crystal lagoon of Meydan Horizon, where architecture, water and landscape exist in quiet balance.

Thoughtful interiors and carefully curated social spaces reflect Ellington's design-led philosophy. A residence where elegance is expressed through detail and every space carries a sense of considered beauty.
